

Velox RIS - Release 13.1 (07/2024)

We are pleased to announce a supplementary update for the RIS portion of the Velox Imaging suite. Release 13.1 primarily features minor changes to the previously-updated Appointment page based on user feedback, amongst other improvements.

As always, please do not hesitate to contact us if you have any questions, comments, feedback or concerns regarding these changes. Here are the most notable updates:

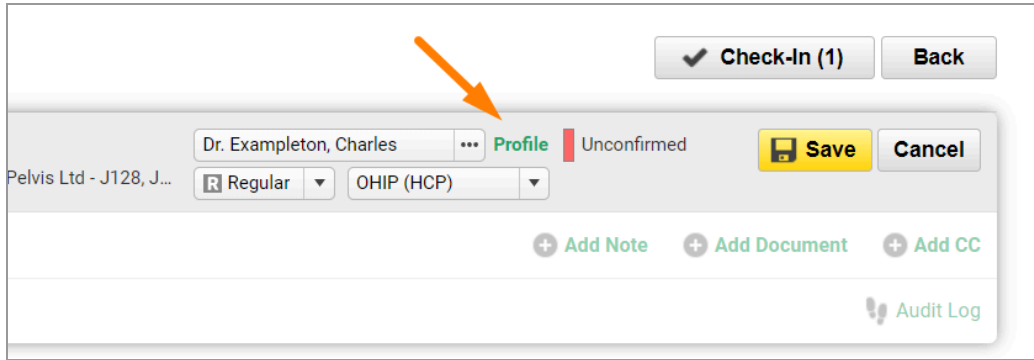

Feature: Viewing Referrer Information from Appointment Page

Referrer information can now be quickly viewed from the Appointment Confirmation page. To do so, place your cursor over the “i” icon to see a preview of the referrer’s information.

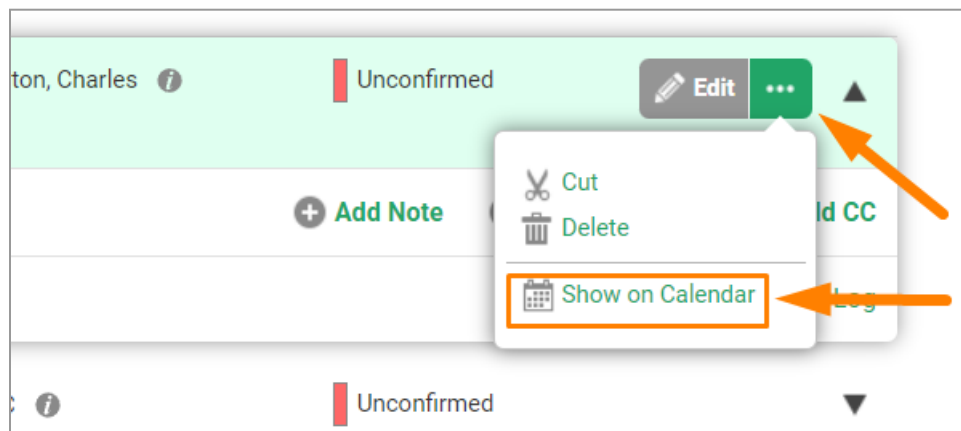

Feature: Updating Referrer Information from Appointment Page

Referrer profiles can now be updated directly from the Appointment page. When editing an appointment, click ‘Profile’ next to the referrer’s name to review and edit their full profile details.

Feature: 'Show on Calendar' from Appointment Page

Clicking the menu next to an appointment page now reveals a 'Show on Calendar' option. Clicking here will close the Appointment page and show the chosen appointment on the calendar.

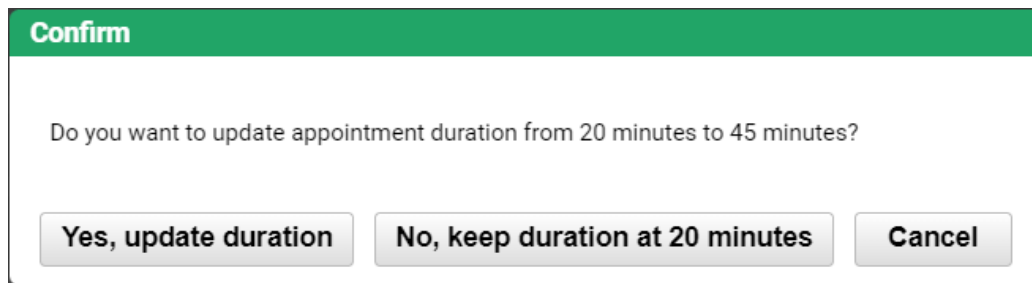

Change: 'Add Appointment' Automatically Includes Appointment Time

Selecting 'Add Appointment' on the Appointment page will now include a default appointment time and duration for the new appointment.

The time on the new appointment will be for immediately after the currently edited appointment, and for the duration of any services selected. As always, users may choose to manually alter the appointment time afterwards.

Change: Adding/Removing Services Affects Appointment Duration

When adding or removing services to an appointment, a popup message will ask users if they would like to update the appointment duration accordingly. As always, users may choose to manually alter the appointment duration afterwards.

Confirm

Do you want to update appointment duration from 20 minutes to 45 minutes?

Yes, update duration **No, keep duration at 20 minutes** **Cancel**

Other Changes

- **[Ontario]** BMD notices now correctly display on Appointment page
- Message prompts on Appointment page are now more context-appropriate
- Fixed an issue with payer address not being displayed on invoices

Additional bug fixes and optimizations will also be included with this release.
