

Velox Suite 2023.10 Release 12

We are pleased to announce a new release for the RIS portion of the Velox Imaging suite has been rolled out. These changes will not affect normal clinical operations. Though it may be beneficial to review specific workflows within the clinic. Please do not hesitate to contact us with any questions or concerns regarding these new changes. **Here are a few notable new features:**

New Feature – Patient Chart

We have added a new page throughout the system. The new patient chart page will centralize all information related to a patient. This page will include Inbound Referrals, Documents, Correspondences, Audit Logs, Reminder Logs, and more.

New Feature – Add Second Tech

When a technologist has been assigned to a service, a new button will appear to add a second tech to this service. When the 'Add the Second Tech' button is clicked, a new "unassigned" slot for tech will appear. Removing the first technologist from the service will also cancel the second tech's assignment.

+ Add the Second Tech

New Feature – Appointment Confirmation (Past/Future)

A new confirmation has been added to the appointment check in process. If an appointment for a past or future day is being checked in. The system will display confirmation pop up. Staff will have the ability to check off the “Don’t ask again” to prevent this confirmation for the next seven days.

Note: The “Don’t ask again” option is preserved in your local browser’s cache for up to seven days. Other computers or accounts may be unaffected.

Updated Feature – Waiting Room: additional filters and sorting

The Waiting Room page allows staff to filter patients by room and modality. Patients in the Waiting Room can also be sorted by time spent in the Waiting Room and by appointment time. These filters will benefit workflows involving collaborative tech studies and shared patient rooms. If a patient card in the waiting room is older than 24 hours, the check-in date and time will be displayed on the patient card.

Note: Two techs will be shown on the patient when using two tech workflows.

Updated Feature – Appointment Statuses; waitlist status

We have added a new ‘waitlist’ status to the list of appointment statuses. Using appointment notes, staff can add information about the queue position and any additional information to help manage the waitlist queue.

Note: We added a ‘Waitlist’ button to the calendar page. This button will immediately display active patients on the waitlist.

Update Feature – Calendar Search: additional filters

Now, on the Calendar Search, we have added filters for appointments marked as waitlisted, as well as filters for specific rooms in a clinic. All other search functions remain the same.

The screenshot shows the 'Calendar Search' window with the following filters:

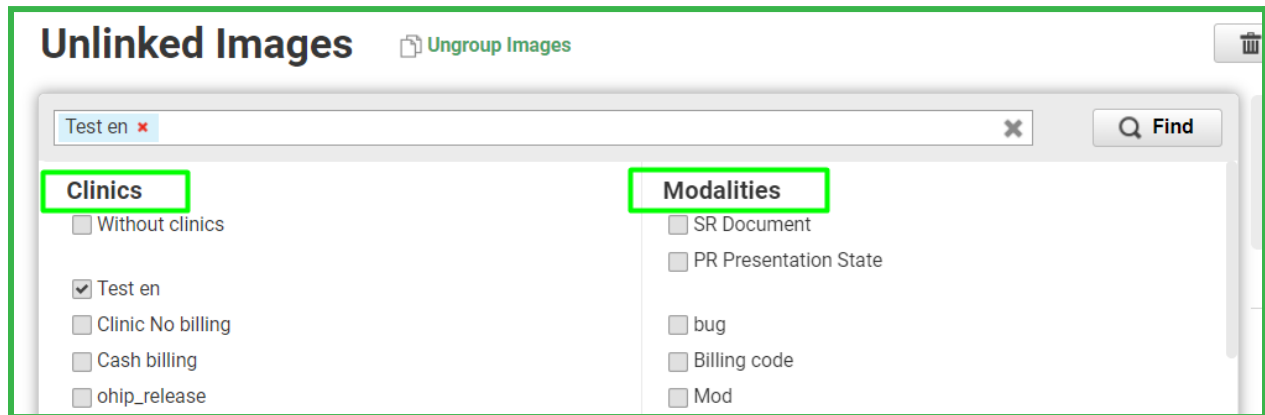

- Clinic:**
 - ☒ Test en
 - ☒ US
 - ☐ X-Ray two
 - ☐ For delete
 - ☐ ohip_release
- Status:**
 - ☐ Unconfirmed
 - ☐ Booked
 - ☐ No-Show
 - ☐ Confirmed
 - ☐ Left Message
 - ☐ To Reschedule
 - ☐ No Answer
 - ☐ Starred
 - ☐ Cancelled
 - ☐ Delayed
 - ☐ See Notes
 - ☒ Wait List
- Patient:**
 - Name or ID Number:
 - Date of Birth: YYYYMMDD
 - Phone Number:
- Appointments:**
 - ☒ Active
 - ☐ Deleted

Note: Appointment notes will now be shown in the results.

Patient added to the waitlist for Tuesday, October 17th, Queue: 2						

Updated Feature – Unlinked Images: Filters

Now, staff can filter by modalities and clinic locations on the Unlinked Images page. If the clinic location information is missing on a series of images, they will be available under the “Without clinics” filter.

Updated Feature – 3rd Party Invoices: Overhaul

To view a brief demo video showcasing these changes, please click here:
https://youtu.be/0S_AsAf5dFg

A new 3rd party invoice details page has been added to the system to help users manage payments. Staff will be able to add multiple payments (3rd party payments only) and make adjustments to an invoice.

Notable changes to the 3rd party billing page include:

- The page title changes to 3rd Party Invoices.
- Replaced the “Print Invoice” button with “Details” .
- The Total Paid field in the Calculate block is replaced with the Balance field.
- Payment status can no longer be changed manually on each invoice from Paid to Unpaid and vice versa. Status is changed to paid once a payment is added.
- Invoice notes can be added on the 3rd Party Invoice Details page, along with printing an invoice.

3rd Party Invoice Details

Invoice #: 00000173 Status: Paid [Print Invoice](#)
 Schedule: tnat Payer: Nill
[+ Add Invoice Note](#)

Services	Billing Code	Professional Fee	Clinic Fee	Charge #	Charge
333 wjair	A004, A006	\$20.00	\$60.00	00000173.1	\$80.00

Payments and Adjustments

P&A #	Type	Date	Payment	Payer	Payment Type	Reference Number	Balance
00000173P1	Payment	11-Oct-2023	\$45.00	Nill	Debit Card		\$35.00
00000173A1	Adjustment	11-Oct-2023	\$10.00	Nill	Unknown		 
00000173A2	Adjustment	11-Oct-2023	\$15.00	New Payer set	Credit Card		\$10.00
00000173P2	Payment	11-Oct-2023	\$10.00	O'Test	Cheque (Insurance)	019392	\$0.00

[+ Add Payment](#) [+ Add Adjustment](#)

Total Charges: \$80.00
 Total Payments: \$55.00
 Total Adjustments: \$25.00
 Balance: \$0.00

Now on the 3rd Party Invoices page(formally cash receipts) users will be able to search for invoices using the invoice number as well as filter by invoice status.
